

Friends,

I was recently thinking about how amazing it is that we have developed technologies that actually allow us to see what's happening inside our bodies. MRI's, CT Scans, and X-rays all give us a view of ourselves that for thousands of years people did not have. But now we do.

Yet in spite of this, we have still not developed any technology or machines that can detect our innermost thoughts and attitudes. God, however, can see these things. Indeed, Psalm 139:1-4 says, "Lord, you have examined me and know all about me. You know when I sit down and when I get up. You know my thoughts before I think them. You know where I go and where I lie down. You know everything I do. Even before I say a word, you already know it."

It's clear from this passage that God knows not only what we're doing on the outside, but what's happening deep within us as well. So when God looks at your thoughts and attitudes, what does God see? Any thoughts that may not be pure or pleasing to Him? Any attitudes that need to change?

We might not have any technology that allows us to see these things, but don't forget that God can and does see them.

On the journey with you,
Pastor Jordan
